

ATLAS 650BSL

This bunded heating oil tank has 650 litre (approx. 143 gallons) storage capacity. It is a slimline, double skinned, plastic oil tank and consists of a 'tank within a tank' acting as a failsafe in the event of a spill. It is suitable for a range of fuel storage including diesel, gas oil, Heating Oil and HVO for both domestic and commercial fuel oil storage.

With designs to suit all locations, from narrow width for domestic situations with limited space through to large capacity for commercial, industrial and agricultural use, the Atlas range of bunded tanks has a proven track record for over 10 years.

Manufactured from high grade polyethylene, British made and is corrosion resistant, has high impact strength and is UV stabilised. The bunded design ensures that any spills or leaks are contained, preventing them from spreading into the environment and causing harm.

Bunded Tank

10 Year Manufacturers Warranty

Watchman & Bottom Outlet Kit Included

Specifications:

- Capacity: 650 Lt
- Tank Type: Bunded
- Tank Shape: Slimline
- Footprint: 600mm x 1210mm
