

TITAN ESSL1000

This bunded heating oil tank has 1000 litre (approx. 220 gallons) storage capacity. It is a slimline, double skinned, plastic oil tank and consists of a 'tank within a tank' acting as a failsafe in the event of a spill. It is suitable for a range of fuel storage including diesel, gas oil, Heating Oil and HVO for both domestic and commercial fuel oil storage.

Titan fuel tanks are manufactured by the market leaders in fuel storage, Kingspan. Titan is a premium brand offering Titan oil and kerosene tanks and Titan diesel tanks with the latest innovations.

Manufactured from high grade polyethylene this Irish made Titan Environmental tank is corrosion resistant, has high impact strength and is UV stabilised. All Titan tanks are CE marked and comply with the latest European standards.. The bunded design ensures that any spills or leaks are contained, preventing them from spreading into the environment and causing harm.
